

Did you experience a major stressor when you were pregnant or recently had a baby? If so, did you save your child's baby teeth?

If yes, then you and your child may be eligible to participate in the study:

Every tooth tells a story

We need YOUR help in this research study to better understand how baby teeth record evidence of life experiences.

Participants must be:

- At least 18 years of age
- Able to speak and write English at a 6th grade level

Study Includes:

- 30-minute phone survey
- 1 online Study Survey
- Collection of your and/or your child's shed primary ("baby") teeth
- Compensation for your time and participation
